

# The best choice for consumable supplies is Océ Pro-Select® inkjet media

## Product Description

Instant dry photopapers, films, and specialty media for photo quality applications. The Océ Pro-Select media line is designed for 17-to 60-inch photo display graphics and proofing printers including models from Océ, Epson, Canon and HP. Wide color gamut and accurate skin tones plus superior shadow details with extremely low dot gain are standard with all Océ Pro-Select photopapers.

### **PSP8S**

Satin Photopaper 8.5 mil 195 gsm

Semi-gloss Lustre Photopaper  
8 mil 190 gsm

### **PSWHTFLM**

Glossy White Film 5 mil

### **PSPPOPUP**

Glossy white film with Gray back  
7 mil

### **PSBLT**

Universal Backlit Film 9 mil

A bright, white SATIN microporous topcoat offers universal compatibility, instant drying and water resistance on aqueous printers. The 8.5 mil base provides premium photographic quality at a lower cost.

A bright, white GLOSSY microporous topcoat offers universal compatibility, instant drying and water resistance on aqueous printers. The 8.5 mil base provides premium photographic quality at a lower cost.

A new resin coated base provides a more neutral b\* value and accepts the same higher ink loads without bleed as PSP8G. The bright, white SATIN microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A true resin coated base accepts higher ink loads with out bleed. The bright, white GLOSSY microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A true resin coated base accepts higher ink loads without bleed. The bright, white SEMI-GLOSS LUSTRE microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A Premium no tear, no-curl, white polyester film designed for applications where a thinner base is required. The HIGH GLOSS microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A premium white polyester film with an integrated gray-back and no-tear, lay-flat performance, designed for display applications where light blocking is needed. The HIGH GLOSS microporous topcoat provides an instant dry, water resistant print and universal compatibility on aqueous printers.

A front print, polyester backlit film with a specially engineered microporous MATTE coating that produces super wide gamut for brilliant colors and sharp details. The water resistance and durability make it a great choice for long-lasting indoor and short-term outdoor displays.

## Creating global leadership in printing

Canon and Océ join forces to create the global leader in the printing industry. For our customers this combines Canon and Océ technology with the support of the Océ direct sales and service organizations. Look to the new Canon-Océ combination for:

- Enterprise printing in the office and corporate printroom
- Large format printing of technical documentation, signage and display graphics
- Production printing for marketing service bureaus and graphic arts
- Business Services for document process outsourcing
